NEWSLETTER

July 2017-June 2018

From The Desk of the Head.....

Dear Colleagues and Students

It gives us pleasure and honor to bring out the issue of newsletter of Department of Computer Engineering for the period from July 2017 to June 2018.

In this biannual newsletter we publish all the important events, activities of the students, faculty, and staff. We would like to thank all contributors including faculty, staff members and students for their valuable inputs.

I must congratulate faculty members and students for publishing papers in international journals / Conferences.

We are in the process of second revision of our autonomous curriculum; we have to work hard for the preparation of curriculum to meet the expectation of all stakeholders. We seek full cooperation and support from all the students, faculty and staff members.

We believe in continual improvement and publishing the newsletter gives a chance to introspect as to how close we are towards achievement of our goals.

Let us endure to strive and achieve our Vision and Mission set before us through the mapping of course outcomes and program outcomes.

Dr. Deepak Sharma
Head
Department of Computer Engineering

GOALS OF DEPARTMENT

- Imparting the knowledge and practical skills in various areas of CSE.
- Providing an academic atmosphere encouraging creativity, outstanding performance through quality of teaching.
- Excelling in preparing our graduates for leadership in the profession and in higher education.
- Embark on lifelong learning for personal and professional growth.

VISION

- To become a center of excellence in discipline of Computer Engineering for developing technically adept professionals with ethical and leadership qualities in service of society.

MISSION

- Provide sound technical foundation in Computer Engineering through comprehensive curriculum and application oriented learning.
- Provide ambience for professional growth and lifelong learning for adapting to challenges in rapidly changing technology.
- Inculcate social and ethical values and leadership qualities.

PROGRAM EDUCATIONAL OBJECTIVES (PEO)

| Index | Objective |
|-------|--|
| PEO 1 | Solve problems in diverse fields using knowledge of Computer Engineering. |
| PEO 2 | Excel in professional career, exhibit leadership qualities with ethics & soft skills. |
| PEO 3 | Pursue higher education, research or entrepreneurship, engage in professional development, adapt to emerging technologies. |

PROGRAM OUTCOMES (POs)

| Index | Outcome |
|--------------|---|
| PO1 | Apply knowledge of mathematics, science and computer engineering fundamentals to the problems in computer systems. |
| PO2 | Formulate and analyze computer engineering problems. |
| PO3 | Design component(s) and module(s) (hardware/software) to develop solutions for computer engineering problems based on specifications and constraints. |
| PO4 | Design and conduct experiments as well as to analyze and interpret the data. |
| PO5 | Identify and apply modern tools to solve computer engineering problems. |
| PO6 | Know the responsibility towards societal, health, safety, legal and cultural problems. |
| PO7 | Understand the impact of computer engineering solutions on society and environment for sustainable development. |
| PO8 | Apply knowledge of computer engineering in profession with ethical responsibility. |
| PO9 | Function effectively as a leader or a member in diverse teams. |
| PO10 | Communicate effectively in professional community and society at large. |
| PO11 | Apply principles of engineering and management in projects as a member or leader of a team. |
| PO12 | Pursue lifelong learning as a means of enhancing the knowledge in the context of technological change |

Program Specific Outcomes (PSO)

| Index | Outcomes |
|--------------|---|
| PSO 1 | Apply acquired skills of Information Systems, Networking, and Image processing in solving problems of varying complexities. |
| PSO 2 | Pursue higher studies in the field of Computer Science & Engineering and be employable in industries. |
